

BOND 2020

AIRPORT ROAD

Morgan Avenue to Horne Road

Project Fact Sheet

PROJECT DESCRIPTION:

This project will reconstruct the current four-lane roadway and reduce it to two lanes to accommodate the current traffic volume. The proposed roadway will include new shoulders and pavement, ADA-compliant curb ramps, signage, pavement markings, and upgraded/additional street illumination along with a traffic signal upgrades at the Morgan Avenue intersection. Utility improvements include water and I.T. The concrete lining for the adjacent stormwater channel will be replaced.
