

Bond 2018

North Lexington Blvd from Leopard Street to Hopkins Road

Project Fact Sheet

PROJECT DESCRIPTION:

Street Improvements

The existing roadway is asphaltic and has an approximate width of 20 to 22 feet. This a two-lane configuration with one travel lane in each direction. There are transitions for driveways and mailbox access. North Lexington Boulevard will include full-depth rehabilitation from Hopkins Road to Leopard Street. All existing pavement and underground infrastructure will be demolished and replaced the N.P.I.D Intersection to the Leopard Street Intersection. Utility Improvements include upgrades to stormwater, wastewater, and water.
